What's New for 2010

- Midsize package: 2917 L passenger space is among best-in-class; rear seat legroom increased by 100 mm over previous model
- New powertrains, including a revised 170-hp 2.5-liter 4-cyl. SUBARU BOXER engine, revised 265-hp turbo/intercooled 2.5-liter SUBARU BOXER and a 256-hp 3.6-liter, 6-cyl. SUBARU BOXER
- Standard 6-speed manual transmission and available Lineartronic™ CVT (Continuously Variable Transmission) for Legacy 2.5i models; 2.5GT exclusively available with 6-speed manual transmission; 3.6R models exclusively available 5-speed automatic transmission with SPORTSHIFT™
- New double-wishbone rear suspension and other chassis enhancements deliver smoothest, quietest ride ever in a Legacy, still with sharp handling reflexes
- Vehicle Dynamics Control system and Traction Control System standard on all models
- Brake Assist safety feature standard

Key Facts

- Naturally aspirated 2.5-liter SUBARU BOXER engine, available with PZEV emission control equipment
- Three types of Symmetrical full-time All-Wheel Drive featured across Legacy line: 2.5i and 2.5GT models with 6-speed manual transmission use a viscous-coupling limited-slip centre differential to distribute power 50:50 front to rear; Legacy 2.5i models with Lineartronic™ CVT (Continuously Variable Transmission) use an electronically controlled multi-plate transfer clutch AWD system to distribute power 60:40 front to rear in dry conditions and 50:50 on slippery surfaces. Legacy 3.6R models use Variable Torque Distribution (VTD) which is a highly sophisticated AWD system that employs an electro-mechanical centre differential with the advanced capabilities of a planetary gear set. to distribute the power 45:55 front to rear in dry conditions and 50:50 on slippery surface

- Standard front seat side impact air bags, side curtain air bags and dual-stage deployment front air bags
