

What's New?

Tribeca underwent a major revision for the 2008 model year – a new 3.6L engine and a switch to regular (87 octane) gasoline, improved fuel efficiency, redesigned front and rear styling, better rearward vision and improved access to the third row seats. The response from the automotive press and from buyers was very positive and sales rose dramatically.

For the 2009 model year the focus is on refining Tribeca's packaging, the biggest news being that, as with the Premier Package, the Tribeca Limited Package is now a 7-passenger to better align the model lineup with consumer buying patterns.

NEW FEATURES FOR THE 2009 MODEL YEAR

TRIBECA
