New Cars

(as of January 2022)

	Make & Model	Overall Score	Road Test Results		Survey Results		Highs	Lows
CR Recommended			Road-test score	Overall mpg	Predicted reliability	Owner satisfaction		
0	2022 Subaru Outback	85	91	24	1	0	Ride, transmission, seat comfort, driving position, integrated cross bars, visibility.	Some controls, Slow responding infotainment screen.
0	2022 Toyota Venza 🔮	83	75	37	8	0	Fuel economy, ease of access.	Controls, visibility, road noise, cargo capacity.
	2022 Chevrolet Blazer	82	83	19	0	0	Acceleration, braking, transmission, quietness, controls.	Visibility, low dash vents.
⊘	2022 Nissan Murano	81	77	21	0	1	Plush cabin, powerful engine, simple infotainment system.	Hampered outward visibility to rear and sides, overly light and vague steering robs driver confidence, CVT idiosyncrasy is not for everyone.
	2022 Ford Edge	80	84	22		•	Handling, quietness, braking, interior room, access, standard safety features.	Driving position.
0	2022 Honda Passport	75	79	21	0		Acceleration, quietness, interior room, standard advanced safety features.	Ride, lackluster handling.
⊘	2022 Volkswagen Atlas Cross Sport	70	81	21		0	Interior room, access, controls.	Too wide for tight parking spaces.
	2022 Hyundai Santa Fe	58	76	24	O	0	Secure handling, braking, interior room, rear occupant alert, hybrid's better fuel economy, ride and power.	Underpowered with base engine, ride (except the hybrid), gear selector.
	2022 Jeep Wrangler	28	36	18	©	0	Off-road ability, strong V6 powertrain.	Stiff ride, lots of wind noise, awkward access, fuel economy.
	2022 Jeep Grand Cherokee	Not Tested	NA	NA	e	0		
	2021 Ford Bronco	In Test	NA	NA	e	8		

HOW TO READTHE RATINGS

Recommended vehicles, indicated with a check mark (②), are the models with the highest Overall Scores that meet the threshold in their category.

Make + Model reflect the vehicle we tested and its engine displacement.

Overall Score reflects a vehicle's performance in our road tests; the latest results from the reliability and owner satisfaction sections of CR's exclusive Annual Auto Surveys; the availability of frontal crash prevention systems with forward collision warning, automatic emergency braking, and pedestrian detection, along with blind spot warning; and, if available, results from government and insurance-industry crash tests. Survey Results reflect findings from CR's Annual Auto Surveys, completed by Consumer Reports members.

Predicted reliability is our determination of how well a model will hold up, based on the problems that members reported in CR's Annual Auto Surveys, which include data on around 420,000 vehicles.

Owner satisfaction is based on the percentage of surveyed owners who said they would definitely buy the same car again. We use a model's latest three years of data to determine the prediction, provided it hasn't been redesigned or significantly updated. In cases where we have insufficient survey responses, or when a model is all-new or redesigned, we use our expert judgment based on brand track record and similar models to predict reliability and ownersatisfaction ratings. Road-Test Results include CR's test findings that we feel are the most relevant. We buy and test between 50 and 60 vehicles each vear, driving them for thousands of miles and putting them through more than 50 tests and evaluations. The results of these tests make up our road-test score. Some tests, such as those for braking and fuel economy, are measured with instruments; categories such as seat and ride comfort, noise, and fit and finish are graded by our experts. The Usability rating is a combination of our testers' assessments of the ease of performing everyday driving tasks, as well as cockpit ergonomics and interface design. The energy consumption of electric vehicles is expressed in a miles-per-gallon equivalent rating (MPGe). Energy consumption for plug-in hybrids is listed in electric and gas modes.

Highs and lows give a quicksummary of a model's notable strengths and weaknesses.

Why Some Vehicles Are Not Rated Certain models have been redesigned or extensively freshened since our last test, or are new. All are scheduled to be included in future road tests. Models include the Jeep Grand Cherokee and Ford Bronco.

What Our Ratings Symbols Mean
