2012 FORESTER

Forester 2.5X
Touring Package shown

- 1** Silver roof rails help differentiate the Touring Package from the standard black roof rails found on other packages offered.
- 2** Touring Package and XT Limited Package models both feature rear spoilers which improve aerodynamics and fuel efficiency while adding to the sporty appearance.
- 3** Thanks to the extensive use of high-tensile steel, the Forester is an IIHS Top Safety Pick and also features relatively thin roof pillars for excellent visibility, reducing the chances of an accident in the first place.
- 4** Mirror-integrated LED turn signals are now featured on Touring Package and Limited Package models to provide that extra bit of safety.
- 5** Auto-leveling HID headlights on 2.5X Limited Package and 2.5XT Limited models provide added safety on dark roads.
- 6** Fog lights on the 2.5x Touring Package, Limited and XT Limited Packages are accented with a stylish metal ring which surrounds the fog light. This is to enhance the styling while making the fog light look larger.

- 1** 2.5X Limited Package and 2.5XT Limited models feature the Pioneer AVIC - X9310BT in-dash navigation, media system with smartphone* integration, and Bluetooth® hands-free system with steering wheel-mounted controls.
- 2** A flip-forward seat cushion table with integrated and illuminated cup holders is standard on Touring and Limited Packages.
- 3** All Foresters now come equipped with a 6-way adjustable passenger seat now featuring height adjustment.
- 4** Reclining rear seats are standard on Touring and Limited Packages as well as 2.5XT Limited.
- 5** A 10-way power driver's seat enhances driver comfort and is standard on all but the introductory 2.5X model.
- 6** An auto up/down driver's side power window on Forester 2.5X Touring and Limited Packages provides added driver convenience.
- 7** Bluetooth® hands-free technology is standard on most models, allowing drivers to keep their hands on the wheel and eyes on the road.
