

## How to Activate your 12 Million POI Card

\*Your customer will need these two documents to complete the activation process.

1. Locate the “device number” of the navigation unit.
  - Touch **[menu]** on the map screen
  - Touch **[settings]**
  - Touch **[Service info]**
  - Write down the device number displayed on the screen
2. Log on to [www.pioneernavigationupdate.ca](http://www.pioneernavigationupdate.ca) to obtain password.
  - You will need the “media card number” supplied [image on the left]
  - You will need the “device number” [refer to previous step]

Follow instructions on the website to get the password.

Entering both media card number and device number into marked locations and select “**submit**”

3. After obtaining the password from the Pioneer website you will need to park your vehicle in a safe place and apply the parking break.
4. With vehicle on detach AVIC-U310BT face and Insert the supplied POI SD card into SD card slot, then re-attach face.  
**(Make sure the SD is NOT in the lock position)**
  - After a short pause, the keyboard for entering the password will appear.
5. After entering the password obtained [found in step #2 ] touch “**OK**”.
  - After you touch “**OK**” the system starts the authentication process.
  - When the authentication process is finished, a message for confirmation will appear.
  - Touch “**OK**”

### Checking whether the activation was done properly

- Touch [Menu] on the map screen. The “**navigation menu**” screen appears.
- Touch [POI]. The “**POI Search**” screen appears
- Touch [Near Me]. The following POI categories increase if the activation has done properly. (Finance, Food Shop, Restaurant, Service)
